

IT-LAMP
IT Leadership and Management Program
A Year's Worth of Leadership Training in One Place at One Cost

IT-LAMP (Leadership and Management Program) is designed to help IT organizations enhance the **business savvy, interpersonal communication and leadership skills** of current and future IT leaders.

The process of enhancing business, communication and leadership skills is not simply a one-time event; it's a long term journey. **This year-long program with ongoing instruction, peer-level support, coaching and a wealth of online resources**, provides the type of multi-faceted environment needed to truly cultivate and grow senior individual contributors, current IT Supervisors, and current IT Managers into future leaders.
